## Detailed Breakdown of the Mentorship:

*\*disclaimer: although there's a detailed breakdown, it will be intuitively lead based your unique energy and specific needs week to week!*

### ***Part 1: Building and strengthening your \*next-level\* spiritual, mindset, and business foundations:***

- Getting clear on your BIGGER vision for your life and business so that we can work backwards from your high-level goals all the way down to who you can BE and what you can DO regularly to make tangible forward progress toward your goals (or something even more magical of course!)
- Cultivating the practice of releasing limiting beliefs and unhelpful perspectives quickly and with minimal resistance, creating a strong mindset that allows you to crystallize your vision into solid reality.
- Building cosmic confidence in your new role as a powerful mystic and spiritual guide; you may be quite confident in your spiritual gifts now, but we'll be kicking it up ten notches so you can more fully embody the value you bring to your community and clients (this attitude is *highly* magnetic, btw!)
- Refining your soulmate client / students based on your strengthened sense of Self and worth as an individual and as a business owner; your 'ideal client' will evolve as you do.
- Organically building an engaged community FULL of people who benefit greatly from your work (many of which will become your clients!) and getting more visible online with your mission and business offerings.
- Having SO much fun getting inspired and brainstorming the details of your new program(s) which not only align with *your* big, beautiful goals but also align with your ideal clients' big, beautiful goals!

### ***Part 2: Aligning with and creating (or honing) your transformational offers:***

- Choosing a "signature" new service / offer (or updating an existing one) that's enjoyable to create, supremely unique to YOU, and in full alignment with the direction, speed, and spirit of your *dream* mystical business.
- Learning advanced leadership skills and how to confidently and effectively use your intuition and spiritual gifts to guide others through meaningful, lasting transformation!

- Deciding and organizing all the applicable fine details of your offer (contracts, program / sales webpages, bookings, pricing / payments, the content itself - - branding, slides, recordings, etc).
- Focusing on amplifying the value-exchange of your business, appreciating what you give (healing, guidance, information, encouragement, tools of transformation) AND appreciating what you receive (*appropriate* compensation for your time, energy, and skills) equally!

### ***Part 3: Marketing / promoting / launching your offer(s) and receiving the overflow of abundance!***

- OWNING your pricing such that the investment is an easy YES for the people who will benefit most from your work!
- Learning how to regularly overcome doubts, fears, and hesitations related to marketing; feel more motivated, comfortable, and, dare I say, EXCITED to promote your offers such that people are equally as excited to join them!
- Getting very clear and confident about your messaging and *how* to communicate the value of your offer to your community such that they are inspired to invest.
- Structuring, writing, and designing a beautiful, authentic, and effective program webpage (or details sheet) and using it to gain confidence with verbal promotion.
- Next steps in creating continued expansion and success moving forward beyond this program!
